1. I am pleased to inform you that a further review of the facts and circumstances causing your forfeiture of leave for the 1976 leave year has resulted in a determination by the Office of General Counsel that the spirit of the governing requirements of reference were satisfied. Accordingly, I have established a Restored Leave Account of 59 hours. In accordance with Reference B, this leave must be used prior to 13 January 1979.

2. It is important that the provisions of [REDACTED] paragraph 3c(5) be carefully followed in reporting use of restored leave to facilitate the manual processing requirements for your restored leave account. A copy of the Restored Leave Report form is attached for your convenience. STATINTL

1. There is attached a copy of a D/Finance memo to [REDACTED] informing him of the establishment of a restored leave account for the forfeited leave which was the subject of your memo of 30 May 1978 to the DDCI.

2. The 30 May memo is being returned to you because the authority to waive regulations as requested in that memo is vested in me by [REDACTED]. Before acting on the waiver request, I asked for Office of Finance comments. Finance requested OGC in the light of a recent OGC finding on another restored leave case to determine whether there was any basis for a ruling that the spirit of the regulations had been satisfied in [REDACTED]'s case. OGC ruled affirmatively. The Office of Finance informal request to General Counsel and the General Counsel response are also attached for your information.

MEMORANDUM FOR: Deputy Director of Central Intelligence

VIA : Deputy Director for Administration

FROM : John H. Waller
Inspector General

SUBJECT : [REDACTED], GS-15, Request for Restoration
of 59 Hours of Annual Leave

25X1A

25X1A

1. Action Requested: That you approve the recommendation in paragraph 16 to restore 59 hours of annual leave lost by Mr. [REDACTED] at the end of 1976.

25X1A

2. Background: [REDACTED] leave was lost as a result of a sequence of events that prevented his taking planned leave in the last quarter of 1976.

25X1A

3. On 25 August 1976, [REDACTED] requested in writing 80 hours of annual leave for the period 30 August through 13 September. This was approved by his Branch Chief on the same date. Due to the press of business, involved with the analysis of a major foreign technical system, this leave was postponed to the period 7 September to 20 September. A copy of the leave slip is attached. The amendment to the scheduled leave was not approved in writing.

4. On 4 September 1976, [REDACTED] departed the Washington area for a vacation in Pennsylvania. On Monday, 6 September, a decision was taken at a meeting at CIA Headquarters at which the Associate DDS&T, the Director of the Office of Weapons Intelligence, [REDACTED]

25X1A

25X1A

5. [REDACTED] returned from leave on Thursday, 9 September, and left for [REDACTED] the following day. On 9 September, [REDACTED] leave slip was marked, by his Branch Chief, "cancelled." A total of 56 hours of his scheduled 80 hours was cancelled by this action.

6. On 18 October, [REDACTED] completed the overseas phase of the exploitation effort. He was involved in various aspects of the exploitation follow-up until 5 November.

25X1A

7. On 1 November, [REDACTED] applied for leave for two periods, 22-30 November and 20-31 December. On the face of the leave slips this involved a total of 128 hours of annual leave. Copies of these approved applications are attached. During the above period it was learned that a government in the Middle East was willing to receive a technical team from CIA [REDACTED]. The timing for the team was subject to the requirements of that government. [REDACTED] was advised to be on standby for a possible TDY, and on 12 November the decision was taken for the trip in question. The ADDS&T, in consultation with the DDS&T, agreed to the cancellation of [REDACTED] leave scheduled for 22-30 November. [REDACTED] Branch Chief wrote "cancelled" on the leave application for that period, thereby cancelling 48 hours of leave. [REDACTED] was involved from 12 November through 10 December planning and acquiring the equipment for the overseas exploitation effort, and on the overseas trip. He was involved from 13 to 17 December in follow-up work in connection with the exploitation effort. [REDACTED] took 64 hours of annual leave from 20 to 31 December, as had been scheduled previously. There being no more time left in the year, he had 59 hours of unused leave at the end of that period.

25X1A

25X1A

25X1A

25X1A

8. On 7 April 1976, in compliance with the advice of the OWI Administrative Officer, [REDACTED] submitted an application to the Director of Finance for the restoration of 59 hours of unused annual leave lost in 1976. The Acting Director of Finance rejected the request on 7 September 1977, noting that:

"...Annual leave forfeited because of an exigency of public business is eligible for restoration only if determination of the exigency is made in writing in advance or concurrently with the cancellation of leave by the cognizant Deputy Director or his designee. The Deputy Director for Science and Technology has made such a delegation to Mr. [REDACTED] Executive Officer, DDS&T.

"Unfortunately the determination of the exigency and cancellation of leave by [REDACTED] does not qualify the forfeited leave for restoration."

9. The Executive Officer of the Directorate of Science and Technology requested a review of the decision, and on 31 January 1978 the Director of Finance replied noting that he lacked authority to restore the leave in the absence of a determination of an exigency of public business and the cancellation of leave in writing prior to the beginning date of the scheduled leave.

10. Findings:

The Agency regulation specifies that the determination of the exigency of public business will be made in writing, in advance of the cancellation of leave, by the Deputy Director concerned.

11. In the first instance the ADDS&T, in the absence of the DDS&T, authorized the cancellation of the leave. In the second instance the DDS&T was informed of the requirement to cancel the leave, and in the absence of an objection we interpret this as implicit approval. Thus, as a finding of fact, the decision was taken at the proper level, that of the top command level of the Directorate in question.

12. While it is a requirement of the law that the leave be approved in writing in advance, it is not a requirement of the law that its cancellation be approved in writing in advance. That requirement is unique to this Agency, and has been criticized as an unrealistic, bureaucratic requirement. The present situation, with the odd sequence of events, makes it very clear that an injustice would result from a narrow administrative requirement that defeats the apparent attempt of the Congress to make it possible to have properly approved leave restored.

25X1A

13. [REDACTED] in his attempt to use his annual leave, has suffered from a sequence of events that deprived him of much of the leave he had planned to take.

14. While the Agency is bound by the requirements of statute, it is not bound by the unjust results of its own regulations. The issuing authority can waive the application of such a regulation when it reaches an improper result, as in the present case.

15. Staff Position: The Director of Finance is not authorized to make exceptions to Agency cases such as this and administers the letter of the regulation. The Office of General Counsel, in past cases, has opined that the DDCI has authority to waive this requirement of the regulation in cases such as this although as a matter of administrative policy it has argued against doing so. We believe that reason and equity, in this case, warrants the waiving of the regulation as it applies to [REDACTED], and we support the restoration of the lost leave.

16. Recommendation: That you approve the restoration of 59 hours of annual leave lost by [REDACTED] at the end of 1976, and that the Director of Finance be instructed to take proper steps to credit him with leave accordingly.
